Practice 1.1

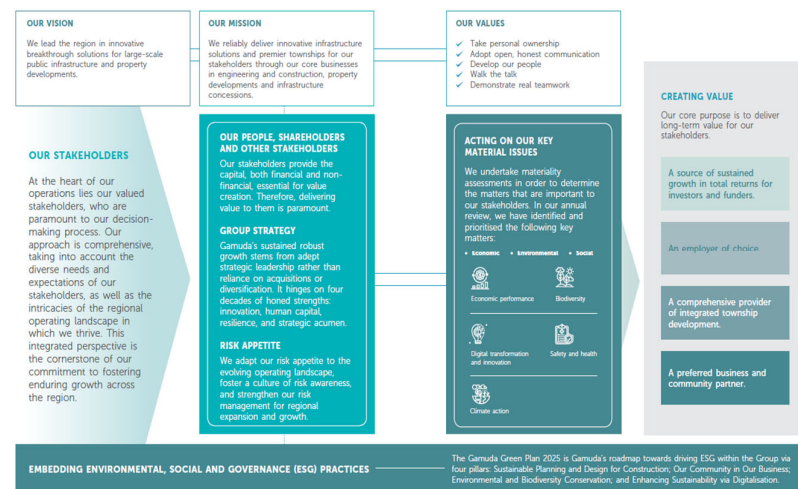

The board should set the company's strategic aims, ensure that the necessary resources are in place for the company to meet its objectives and review management performance. The board should set the company's values and standards, and ensure that its obligations to its shareholders and other stakeholders are understood and met.

Application	:	Applied
Explanation on application of the practice	:	<p>The Board of Directors ("Board") of Gamuda Berhad ("Gamuda" or "Company") recognises the importance of maintaining adequate corporate governance practices within Gamuda and its subsidiary companies ("Group") and devotes considerable effort to identify and formalise best practices. Good corporate governance is crucial to sustain the Group in the long term through the ever changing regulatory and market environment. The Board views corporate governance as an integral part of the Group's business strategy.</p> <p>The Board believes that sound and effective corporate practices are fundamental to the smooth, effective and transparent operation of a company and its ability to attract investment, protect the rights of shareholders and stakeholders, and enhance shareholder value.</p> <p>The Board will continuously evaluate the status of the Group's corporate governance practices and procedures with a view to adopt and implement the best practices in so far as they are relevant to the Group, bearing in mind the nature of the Group's businesses and the size of its business operations.</p> <p>The Board is responsible for the long-term success of the Group and the delivery of sustainable value to stakeholders. Hence, the primary role of the Board is to protect and enhance long-term stakeholder value. It sets the overall strategy for the Group and supervises executive management. It also ensures that good corporate governance policies and practices are implemented within the Group. In the course of discharging its duties, the Board acts in good faith, with due diligence and care, and in the best interests of the Company and its shareholders.</p>

A framework of delegated authority is in place consistent with the structure of delegation below the Board level. The Board reserves to itself certain key matters to approve, including the Group's strategic plans, major capital expenditure, corporate governance issues, dividend payout and external financial reporting.

The Board delegates responsibility for the day-to-day operation of the business to the Group Managing Director who recognises his responsibility for ensuring that the Company operates within a framework of prudent and effective controls.

In discharging his duties in leading the Company with due care, skill and diligence, the Company led by the Group Managing Director is driven and guided by the Value Creation Strategy as illustrated below and as set out on pages 44 and 45 of the Integrated Report 2023: -

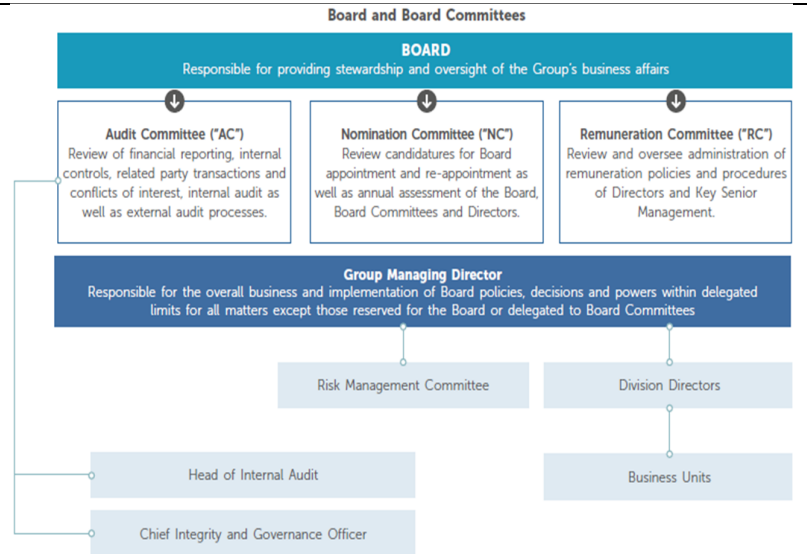

The above Value Creation Strategy has been formalised, shared with employees, and consistently reinforced during their tenure with the Group.

In seeking to create value for Gamuda and its stakeholders, Gamuda adopts an integrated approach that considers key trends in its operating environment that has an impact on its operations; the needs and expectations of its stakeholders; as well as key sustainability issues. Gamuda assess the risks and opportunities of these various factors in order to develop a business strategy that will steer Gamuda towards attaining its corporate goals and our ability to create value in the short, medium and long-term. Throughout this entire value creation chain, Gamuda remain cognisant of our values and uphold the highest standards of governance to ensure that everything we do reflects our commitment to integrity, transparency and sustainability.

	<p>As illustrated above, Gamuda seek to achieve sustainable growth through the 3C's of capacity, capability and competitiveness. This is encapsulated in the four focus areas of:</p> <ul style="list-style-type: none"> ▶ business growth, especially within the region; ▶ digitalisation and innovation; ▶ talent development; and ▶ focus on Environmental Social and Governance (“ESG”). <p>The Management’s performance under the leadership of the Group Managing Director is monitored by the Board. More details affecting business units, ground operations, strategies and performances are usually presented and discussed at the Board Meetings including specific matters that are reserved for the full Board’s decision, as follows: -</p> <ul style="list-style-type: none"> ▶ key corporate strategies and plan involving acquisitions and disposals of material assets; and ▶ major investment decisions affecting the Group’s direction and policies and approvals of all financial results and announcements. <p>The relevant members of the Management are always in attendance at Board meetings to present these updates on the progress of key initiatives, business targets and achievements to date, and to provide clarification on the queries and issues raised by the Board. The Group Managing Director and the Management are neither substantial shareholders nor controlling shareholders of the Company.</p> <p>The Chairperson of the Audit Committee would inform the Directors at the Board Meetings, of any salient matters raised at the Audit Committee Meetings and which requires the Board’s notice or direction.</p> <p>The Head of Legal and Company Secretarial who is also the Joint Company Secretary, is also in attendance at Board Meetings to respond to any enquiries by the Board on legal and regulatory matters of the Group.</p> <p>As depicted in the illustration below, Board Committees have been established to assist the Board in its oversight function where each Committee has specific areas of responsibility. It should however be noted that at all times, the Board retains collective oversight over the Board Committees. These Board Committees have been constituted with clear terms of references and they are actively engaged to ensure that the Group is in adherence with good corporate governance: -</p>

All these Board Committees report to the Board on all matters they have considered and recommended. The Board Committees exercise transparency and full disclosure in their proceedings. Issues deliberated by the Board Committees are presented to the Board with appropriate recommendations. The ultimate responsibility for the final decision on all matters lies with the Board.

The Audit Committee assists the Board in the discharge of its fiduciary duties, overseeing the financial reporting process and ensuring that the results of the Company's operations are fairly presented in its financial statements. Gamuda has introduced its Leadership Competency Framework to formalize and streamline its approach to developing its employees and strengthening succession planning. A significant aspect of our efforts to enhance leadership within our organization is the 'Leap to Lead' initiative.

Launched in February 2019, Leap to Lead involves series of ongoing leadership talks that address the three pillars of the Leadership Competency Framework – business savvy, self-savvy and people savvy. Lead to Leap was conceived to promote culture of nurturing and developing Gamuda’s employees into greater leaders.

Taking the first step towards this change of culture, external speakers are brought in to complement the insights provided by our own people. This is done to provide a broader perspective of how to demonstrate leadership in the workplace, regardless of rank. During the financial year under review, one dialogue session was held on 28 October 2022, the details are as follows:

Topic : Technology and Innovation – Scaling Up Frontier Technologies for a Sustainable Future

- Panellist :
- Christopher Tock
(Group CEO of Digitally.asia)
 - John Lim
(Chief Digital Officer)

Gamuda aspires to churn out leaders who can take on important roles, agile and adaptable to constant change. We strongly believe that the Leap to Lead initiative can play a significant role in achieving this. We take pride in our talent pool and believe that Gamudians can leverage each other’s strengths to give Gamuda a competitive edge.

Across the Group, the Company has put in place a structured Group-wide leadership succession planning review process for key senior management positions, assessing the capacity, level of readiness and aspiration of this leadership pool during the financial year under review. With millennials and generation Y employees comprising 40 percent of the workforce in Gamuda, the Group sees the need for more of them in senior management ranks. This is necessary for the Group’s long-term growth. Gamuda started by identifying good talent with great potential, and placing them in critical roles while moving them up the value chain as part of development and succession planning.

Meanwhile, our succession plans are well underway, as reflected in the changing face of our Board and senior management teams. Young leaders in their 30s now fill at least half of our Board seats and executive positions across Gamuda Engineering and Gamuda Land. Gamuda believe strongly that these young leaders with long runways ahead of them will be able to steer the Group in the new directions we are pursuing with the increased prominence of digitalisation and ESG in our day-to-day business.

In line with the Group's transition and succession plans, more is expected from high potential next generation leaders within Gamuda Group who demonstrate ownership, strategic analysis and critical thinking to move up to key senior management positions in the near future.

For this purpose, Mr. Justin Chin Jing Ho was appointed as the Alternate Director to our Deputy Group Managing Director, Y.Bhg. Dato' Ir. Ha Tiing Tai on 18 October 2021. Mr. Justin Chin's profile is set out on page 77 of the Integrated Report 2023.

The business environment has significantly changed and continues to evolve at a fast pace; driven by the two powerful transformative forces of climate action and digitalisation. The younger leaders of Gamuda will lead the charge, positioning Gamuda Group to benefit from new business opportunities that arise from this new reality particularly in circular construction, renewable energy, data and analytics. Gamuda experienced senior staff will continue to play crucial roles in the Group's operations as strategic advisors in guiding, mentoring and coaching these younger leaders.

There is a growing interest among the Company's employees to explore different ways to harness technology, whether it is to automate or improve on daily deliverables. This is evident from many of the great initiatives seen across the organisation, such as in BIM and IBS, where pockets of innovation had been recognised with industry awards. To keep this culture of creative collaborative growing, a community known as Gamuda Excellence Transformation ("**GET**") has been set up. Inaugurated in June 2021, GET aims to elevate digital excellence across Gamuda and catalyse the development of real, people-driven solutions regardless of project background.

Moving on to remuneration of the Board, the Remuneration Committee's main responsibility is to review and recommend the framework of Executive Directors' remuneration to the Board, in particular, the remuneration packages for the Executive Directors in all its forms, drawing from outside advice, where necessary and fees payable to the Non-Executive Directors.

The Remuneration Committee aims to ensure that Directors' remuneration is competitive, motivates good performance and loyalty, and supports growth in shareholder value. The remuneration of the Non-Executive Directors takes the form primarily of fees, which is approved by the Company shareholders.

The Board recognises Investor Relations ("**IR**") as a key component of its Corporate Governance obligations. To meet the high expectations of the investment community, the Board has set up a dedicated IR unit headed by the Group Managing Director, and assisted by the Senior Group General Manager, Investor Relations, to provide direct access to top management in all matters pertaining to IR. To enhance the effectiveness of the IR unit, the Board has instituted a comprehensive IR policy and programme. Details of the Investor Relations are set out on pages 65 and 66 of the Integrated Report 2023.

Application	:	Applied
Explanation on application of the practice	:	<p>Gamuda Group’s commitment to an ethical business environment and strong governance resilient to the threats of corruption, abuse of power and malpractices is sighted by the formation of the Integrity and Governance Unit (“IGU”) on 13 December 2019.</p> <p>During the financial period, IGU, in collaboration with the business heads/entities, undertook the following initiatives:</p> <ul style="list-style-type: none">▶ Operational efficiency and transparency enhancement;▶ Gamuda Organisational Anti-Corruption Plan (“OACP”) 2021-2024;▶ Engagement with the Malaysian Anti-Corruption Commission; <p>For details, please refer to the Statement on Integrity and Governance set out on page 109 of the Integrated Report 2023 which encompasses the milestones for financial year (“FY”) 2023.</p> <p>Gamuda maintains a zero-tolerance approach to bribery and corruption and have adopted several measures to eliminate any risk of such instances across the organisation and with our partners, associates, and suppliers. This aligns with our Anti-Bribery and Corruption (“AB&C”) Policy, the Whistleblowing Policy (supersedes the whistleblowing policy adopted by the Group in 2011) and relevant national laws. Some of the anti-corruption measures include:</p> <p>a. Within the Group</p> <ul style="list-style-type: none">▶ Integrity Pledges for Directors and the Company employees were implemented in FY2021. The pledge sets a clear leadership tone that there is no compromise on the issue of corruption and reinforces the will and corruption-free stand of the Board and the Management of Gamuda as well as the Group. It also demonstrates Gamuda long-standing commitment to promote integrity and good governance amongst its personnel and further reaffirms the Group’s stand in ensuring that there are no corrupt practices or elements of corruption throughout the Group and that any abuse of power will not be tolerated.

All Directors have signed a Director Integrity Pledge upon assuming the role, and it remains in force for their entire tenure.

- ▶ Implementing principles of our OACP 2021-2024 in line with national strategies, which is revised every three years
- ▶ A dedicated IGU is responsible for ensuring our AB&C Policy commitments are adhered to – led by the Chief Integrity and Governance Officer (“CIGO”).

IGU conducts regular bribery and corruption risk assessments and oversees Gamuda’s internal corruption monitoring system, which includes operating guidelines that address record-keeping, relevant policies and procedures, and appropriate behaviour.

- ▶ **95 percent** of employees received training on anti-bribery and corruption in FY2023.

0 cases of bribery, corruption or disciplinary action reported or required to be taken in FY2023

b. With Suppliers

- ▶ Prior to engagement, all suppliers are required to submit written commitments, through Gamuda’s digital supplier platform, agreeing to abide by our AB&C policy.
- ▶ Suppliers are educated on the AB&C policy requirements and the importance of corporate integrity in business culture.

In accordance with Gamuda Whistleblowing Policy and Procedure, stakeholders are encouraged to report any concerns of improper conduct related to the Group’s activities. All internal and external stakeholders have access to this mechanism, which provides anonymity to the extent permitted by law. This creates a secure avenue for raising grievances without fear of reprisal or dismissal. The CIGO oversees the procedure, and an independent investigating team leads each case.

Gamuda is committed to providing a fair and equitable workplace for all employees. Our whistleblowing hotline and policy ensures that employees also have a safe and confidential way to raise concerns about any wrongdoing or misconduct. This is a testament to our commitment to creating a workplace where everyone feels respected and valued.

	<p>During the financial year, IGU conducted a whistleblowing perception survey via Gamuda Workplace platform to gather honest and valuable feedbacks from the Group's employees about whistleblowing in Gamuda. This initiative was undertaken with the goal of identifying areas for improvement and enhancing the overall whistleblowing process within the organisation.</p> <p>The above two policies are available for reference on Gamuda's corporate website at www.gamuda.com.my or for easy access, please scan the QR code below with a smartphone: -</p> <div style="text-align: center;">  </div>

OUR GLOBAL ALIGNMENT

Gamuda commits in areas where we can make the biggest impact when it comes to climate action. As an infrastructure group - master planning and engineering design are where we can make a difference, which is the key focus in Pillar 1 of the Gamuda Green Plan 2025.

The ESG risk matters for the Group are discussed and monitored by the Group's Risk Committee, the Board management and senior management, which are disclosed in the Risk Management Committee Report (see page 103) and Managing Our Risks (see page 56) of the Integrated Report 2023.

The GGP 2025 is a framework with defined carbon reduction targets across the Group to chart our plans and commitments for the next five year, with an extended view to 2030 and beyond. It commits the entire Group to indirect greenhouse gases emission intensity by 30 percent in 2025 and 45 percent in 2030.

Taking decisive action on climate change, our ESG Steering Committee is chaired by top-level leadership to aggressively drive our GGP forward.

	This is coupled with continuous annual independent verification (Limited Assurance) and internal audit to ensure the accuracy and integrity of sustainability disclosures of the Group which is made available in the yearly Sustainability Report.

Practice 5.6

In identifying candidates for appointment of directors, the board does not solely rely on recommendations from existing board members, management or major shareholders. The board utilises independent sources to identify suitably qualified candidates.
